

Warrior Family Program

Cancer doesn't just impact the patient. It impacts everyone. Siblings, parents, grandparents, the whole family is touched by this journey. That's why the Warrior Family Program exists. Throughout the year, we invite our Warriors and their families to do something normal together. Go to a Dallas Stars game. Enjoy a holiday party where everyone gets a gift. Take a family cooking class. Attend a parent night out where moms and dads get to breathe and connect with others who understand. Go to an amusement park just to have fun. These events are free because we believe every family deserves this kind of medicine for the soul. Parents tell us that these moments allow them to remember who they are beyond the diagnosis, to reconnect as a family, and to make beautiful memories even during hard times.
